S. RES. 439

Whereas family service learning is a method under which children and families learn and solve problems together in a multi-generational approach with active participation in thoughtfully organized service that—

Whereas family service learning—

(1) is multi-generational learning that involves parents, children, caregivers, and extended family members in shared learning experiences in physical and digital environments;

(2) is integrated into and enhances the academic achievement of children or the educational components of a family service program in which families may be enrolled; and

(3) promotes skills (such as investigation, planning, and preparation), action, reflection, the demonstration of results, and sustainability;

Whereas family service learning has been shown to have positive multi-generational effects and encourages families to invest in their communities to improve economic and societal well-being;
